Trust & Compliance

Helping organizations of all sizes operate safely in the digital economy

Our Trust & Compliance initiatives include:

- Liaising with national and international certification bodies

- Helping businesses obtain required certification/accreditation

- Promoting best-practices in assessing vulnerabilities and threats

- Expanding market opportunities to compete in supply chains that require accreditation

What is CyberSecure Canada?

CyberSecure Canada is:

- A voluntary cybersecurity certification developed by the Federal Government of Canada.

- Based on 13 control areas for baseline cybersecurity hygiene.

- Designed for small and medium organizations to improve their cybersecurity baseline

- CyberNB.ca/Trust-and-Compliance and select the Learn More button under CyberSecure Canada.
